**BUSINESS REOPENING REQUIREMENTS FOR APPLICATION**

**Attachment.**

As appropriate the following describes Social Distancing, PPE, and Social Hygiene requirements, guidelines and protocols of our establishment in concurrence with the City of Newark guidelines.

- Ensure 6 f t. distance between personnel, unless safety or core function of the work activity requires a shorter distance.
- Place visible signs with comprehensive instructions on hygiene and social distancing outside establishment.
- For any work occurring indoors, limit workforce presence to only the employees necessary to conduct curbside and in-store pickup activities, but no more than 50% of the maximum occupancy for a particular area set by the certificate of occupancy, inclusive of customers picking up an order who must maintain 6 f t. of space from others or wear an acceptable face covering.
- Use Plexiglass plastic shielding barriers at cash registers and interchanges, or close customer contact..
- Any time personnel are less than 6 f t. apart from one another or a customer and without a physical barrier (e.g. plexiglass), personnel must wear acceptable face coverings, gloves and PPE.
- Tightly confined spaces (e.g. elevators, small stock rooms, behind cash registers, narrow merchandise aisles) should be occupied by only one individual at a time, unless all employees are wearing face coverings. If occupied by more than one person, keep occupancy under 50% of maximum capacity.
- Have hand sanitizers available and sanitizing stations were appropriate.
- Post social distancing markers using tape or signs that denote 6 f t. of spacing in commonly used and other applicable areas (e.g. clock in/out stations, health screening stations, cash registers).
- Limit in-person gatherings as much as possible and use tele- or video-conferencing whenever possible. Essential in-person gatherings (e.g. meetings) should be held in open, well-ventilated spaces with appropriate social distancing among participants including special hours of operation for Seniors/At-risk customers Establish designated areas for pick-ups and deliveries, limiting contact to the extent possible.
- Create additional space for employees by limiting in-person presence to only personnel necessary for the current task(s), adjusting retail hours to spread employee and customer traffic over a longer period of time, staggering arrival/departure times, creating A /B teams.
- Modify the use and/or restrict the number of workspaces and employee seating areas to maintain 6 f t. distance. If not feasible, provide and require face coverings or enact physical barriers (e.g. plastic shielding walls), in accordance with OSHA guidelines, in areas where they would not impair air flow, heating, cooling, or ventilation. Reduce bi-directional foot traffic by posting signs with arrows in narrow aisles, hallways, or spaces. Designate distancing with direction markers.
- Stagger customer arrivals by advising pick-up time windows, schedule appointments were possible, and avoid direct handoffs. (Note: 5 people in store per 1000 feet).
- Designate and arrange customer waiting areas (e.g. lines, parking areas) to maximize social distancing, and implement a touchless delivery system whereby customers stay in the car while delivery takes place.
- Encourage customers to use touchless payment options or pay ahead.
- Prohibit non- essential visitors at retail locations.
- Clean and disinfect commonly touched areas and surfaces with disinfectant minimum 3-times a day.
- Require all deliveries meet above protocols and maintain records of deliveries
- Employers must provide employees with an acceptable face covering at no-cost to the employee and have an adequate supply of coverings in case of replacement.
- Acceptable face coverings include but are not limited to cloth (e.g. homemade sewn, quick cut, bandana) and surgical masks, unless the nature of the work requires stricter PPE (e.g. N95 respirator, face shield).
- Face coverings will be cleaned or replaced after use or when damaged or soiled, may not be shared, and should be properly stored or discarded.

**City of Newark**  
**BUSINESS REOPENING REQUIREMENTS FOR APPLICATION**

**Attachment.**

- Limit the sharing of objects (e.g. registers) and discourage touching of shared surfaces; or, when in contact with shared objects or frequently touched areas, wear gloves (trade-appropriate or medical); or, sanitize or wash hands before and after contact.

**Hygiene and Cleaning**

- Adhere to hygiene and sanitation requirements from the Centers for Disease Control and Prevention (CDC) and Department of Health (DOH) and maintain cleaning logs on site that document date, time, and scope of cleaning. Provide and maintain hand hygiene stations for personnel, including handwashing with soap, water, and paper towels, as well as an alcohol-based hand sanitizer containing 60% or more alcohol for areas where handwashing is not feasible.
- Provision and encourage employees to use cleaning/disinfecting supplies before and after use of shared and frequently touched surfaces, followed by hand hygiene.
- Ensure gloves are worn while handling any food products. Sanitize hands before and after transferring a load (e.g. truckload) of merchandise.
- Prepare a plan for receipt and resale of returned merchandise, or modify policies to ensure safety of employees and customers.
- Wherever possible, increase ventilation of outdoor air (e.g. opening windows and doors) while maintaining safety precautions.
- Encourage employees to bring lunch from home and reserve adequate space for employees to observe social distancing while eating meals.
- Conduct regular cleaning and disinfection at least after every shift, daily, or more frequently as needed, and more frequent cleaning and disinfection of shared objects (e.g. registers) and surfaces, as well as high transit areas, such as payment devices, pickup areas, restrooms, common areas.
- Cleaning and disinfecting of the retail location, shared surfaces, and other areas, as well as equipment, should be performed using Department of Environmental Conservation (DEC) products identified by the Environmental Protection Agency (EPA) as effective against COVID-19.
- If cleaning or disinfection products or the act of cleaning and disinfecting causes safety hazards or degrades the material or machinery, personnel should have access to a hand hygiene station between use and/or be supplied with disposable gloves.
- Prohibit shared food and beverages (e.g. buffet-style meals).
- Reviewed City-issued industry guidelines with staff.
- Post signage inside and outside of the retail location to remind personnel and customers to adhere to proper hygiene, social distancing rules, appropriate use of PPE, and cleaning and disinfecting protocols.
- Train all personnel on new protocols and frequently communicate and document safety guidelines.

**Communication**

- Establish a communication plan for employees, visitors, and clients with a consistent means to provide updated information.
- Maintain a continuous log of every person, including workers and visitors, who may have close contact with other individuals at the work site or area; excluding customers; and excluding deliveries that are performed with appropriate PPE or through contactless means.
- Use social media, verbal communication, and signs to provide customers with instructions for ordering/pickup and to encourage them to use of face coverings when 6 ft. of distance cannot be maintained, in accordance with CDC and DOH guidelines.
- If a worker, visitor, or customer was in close contact with others at the retail location and tests positive for COVID-19, employer must immediately notify state and local health departments and cooperate with contact tracing efforts, including notification of potential contacts, such as workers, visitors, and/or customers (if known) who had close contact with the individual, while maintaining confidentiality required by state and federal law and regulations.

**City of Newark**  
**BUSINESS REOPENING REQUIREMENTS FOR APPLICATION**

**Attachment.**

- Conspicuously post completed safety plans on site.

**Screening**

- Employees who are sick should stay home or return home, if they become ill at work.
- Implement mandatory health screening assessment (e.g. questionnaire, temperature check) before employees begin work each day and for essential visitors (but not customers), asking about (1) COVID-19 symptoms in past 14 days, (2) positive COVID-19 test in past 14 days, and/or (3) close contact with confirmed or suspected COVID-19 case in past 14 days.
- Assessment responses must be reviewed every day and such review must be documented.
- Employees who present with COVID-19 symptoms should be sent home to contact their health care provider for medical assessment and COVID-19 testing. If tested positive, employee may only return completing a 14-day quarantine.
- Employees who present with no symptoms, but have tested positive in past 14 days, may only return to work after completing a 14-day quarantine. Employees who have had close contact with a confirmed or suspected person with COVID-19 but are not experiencing any symptoms should inform their employer and may be able to work with additional precautions, including regular monitoring for symptoms and temperature, required face covering all times, and appropriate social distancing from others.
- On-site screeners should be trained by employer-identified individuals familiar with CDC, DOH, and OSHA protocols and wear appropriate PPE, including at a minimum, a face covering. Have a plan for cleaning, disinfection, and contact tracing in the event of a positive case.
